

Warum wird in SpyOFF nur ein Server pro Land angezeigt?

Du kannst die Einstellung vornehmen Deine Server manuell auszuwählen. SpyOFF verwendet sonst automatisch den für Dich besten Server, welcher die schnellste Verbindung haben sollte.

Jedoch kann es manchmal zu Unstimmigkeiten kommen, weswegen eine manuelle Serverauswahl nützlich sein könnte.

Bitte wähle hierzu im Client unter "**Settings**", dass Du die Server selbst aussuchen möchtest - "**Select server yourself**".

Anschließend musst Du nur noch **speichern**. Die Serverliste wird danach im Client angezeigt. Du kannst Dich somit auf jeden beliebigen Server manuell einwählen.

The screenshot displays the SpyOFF client interface. On the left, there is a 'Server location' list with options: Japan, Australia, USA, Germany (selected), Netherlands, Hungary, and South Korea. To the right of this list is a 'Serverlist' showing several Frankfurt servers (fra-a01 to fra-a10) with their respective ping times. Below the server lists are four mode buttons: 'ULTRA Secure', 'Balanced', 'Highspeed', and 'Settings' (which is highlighted with a red box). A large green 'CONNECT' button is positioned below these modes. At the bottom left, there are social media icons for Twitter, Google+, and Facebook, along with links for 'My account' and 'Support'. A red status bar at the bottom indicates 'Status: not connected'. On the right side, a 'Settings' window is open, showing various options. The 'Select server yourself' checkbox is checked and highlighted with a red box. Other settings include 'Start SpyOFF with Windows' (unchecked), 'Show disconnect confirmation' (checked), 'Show tooltips' (unchecked), and 'Enhanced DNS leak protection' (unchecked). The 'Language' is set to 'English' and 'Log level' is 'Standard'. Under 'If the connection gets lost', 'Activate Killswitch' is selected. 'Reconnect retries' is set to 5, 'Select a protocol' is 'L2tp', and 'Connection timeout' is 30 seconds. A 'Save settings' button at the bottom of the settings window is also highlighted with a red box.
